ShipShape

Marine Maintenance Services Website

By Aareen Dakway | Roll No. 150096725003

Problem Statement

The Challenge

Marine maintenance bookings relied on phone calls and in-person visits — slow, error-prone, and frustrating for boat owners.

Key Pain Points

- No online booking system for marine services
- No way to get instant price estimates
- Services not filtered by vessel type
- No digital tool to locate nearby marinas
- No emergency on-water response option

Sailboat

Yacht

Jet Ski

3 vessel types — no unified service platform

100%

of bookings were offline before ShipShape

ITM

Our Solution — ShipShape Website

01

Vessel Selection

Sailboat, Yacht & Jet Ski with smart service filtering

02

Service Booking

Hull Cleaning, Engine Check & Winterization

03

Live Price Engine

Real-time cost based on boat length + services chosen

04

Emergency Toggle

+$150 on-water priority response option

05

Bundle Discount

Monthly maintenance plan with 20% off

06

Marina Map

Interactive Leaflet.js map of 5 South Florida marinas

Conclusion

Key Outcomes

- ✓ Vessel filter reduces cognitive load — only relevant services shown
- ✓ Live pricing engine eliminates need for a manual calculate button
- ✓ Sticky action bar keeps CTA visible — reduces booking drop-off
- ✓ Leaflet.js map renders 5 marinas instantly with interactive popups
- ✓ Fully responsive CSS Grid/Flexbox layout across all screen sizes

Tech Stack
